We append a few of the Opinions of the Press:
From the Courter

"As a history of missionary effort to Christianize the most savage of the savage, it is a peculiarly valuable production, and will recommend itself widely to the public."

From The Boston Post

"Now that the Government of Great Britain is turning its attention toward the occupation and appropriation of the Fiji Islands, in order to construct the influence of the French, who have established a naval earlien and settlement at New-Caledonia, any surfection information regarding the group will be sure to interest a large class of readers.

"The robbe self-secrifice and end ritig constancy of these Missionaries in their efforts to Christianize the cambals of the Fiji Island, is without a parallel in the history of missionary effort in the world. The constant berbrittes exercised before them, thrilling them with inconceiva be horror, staggering faith, and chilling charity, greatly resolved their efficient operations, and necessarily leasued their successes, although the actual amount of good accomplished cannot well be estimated."

From The N. Y. Observer.

"This is a most valuable work up. n a new subject. It is the result of patient and intelligent research by the Rev. Thomas Williams, and the Rev James Calvert. The facts are reliable, the deductions are the fruit of long personal observation and inquiry. The history, government, wars, agricultural advantages, manuers and customs, religion, language, and interature of the islanders, are casefully and selentifically treated in the first part of the book, while the second part is devoted to a deeply interesting account of the missionary operations undertaken and carried on in the different islande. We commend this book must heartify of Christian missions.
